

GB60ATG awards

Contacts can be made using any data mode on any band.
Each contact on a new band or mode counts one point towards the award.

GB60ATG will be active from many G countries during the year of operation. The country of operation at any time will be shown on the schedule page of the BARTG website. Each band/mode slot from a new GB60ATG country counts again for points.

Mixed modes:

75 points ... Diamond award

60 points .. Gold award

40 points ... Silver award

20 points ... Bronze award

Single mode:

50 points ... Diamond award

40 points ... Gold award

20 points ... Silver award

10 points ... Bronze award

Anyone at Gold or Diamond level can apply for a silver salver in presentation box for only \$30.

The first applicant to reach Diamond level at either mixed or single mode, can apply for a free salver.

No automatic operation will be allowed.

Applications for awards should be made to the BARTG awards manager.
